

ALASKA PURE VODKA

ALASKA is a delicate vodka inspired by wild, vast spaces and the wonders of frosty landscapes. The very delicate flavor is a consequence of distillation process conducted no less than six times and utilizes absorptive filtration on active coal. The base resource for its production is the highest quality grain and crystal clear water.

Brand with a history going back to the 1990s reactivated by the AWW Group. In 2020 the bottle received a new label and changed bottle shape.

ALC.
